

# Frame a Memory

**Directions:** Leaving behind familiar people and places can be hard to do, but a picture of those things can be comforting. Encourage your child to paste or draw a picture of something he wants to remember from his old home into this frame. Help him label the picture and hang it in your new home.

**Family Tip:** Go for a walk around your house and neighborhood with your child and say good-bye to important people and places. Ask if he'd like to take a picture of himself at some of his favorite places, such as the neighborhood playground, to help him remember them after the move.
