

# My Moving Labels

**Directions:** Your Sesame Street friends are here to help you pack! Encourage your child to color the labels. Then help him cut them out, write his name, and attach them to each of his boxes. To help make packing more exciting, use the box as a canvas! Your child can continue to decorate his boxes with markers and stickers. That way, when you arrive at your new home, you'll be sure to know which boxes are his and you'll be able to unpack those first.

**Family Tip:** Instead of packing everything in your moving boxes, allow your child to bring a few of his favorite items along with him in his backpack so he'll have something comforting at hand during the journey to your new home.
